

MAKE YOUR OWN MAZE

You'll need:

1. Paper plate, preferably with deep sides
2. Tape
3. Glue
4. Pencil
5. Plastic straws cut into short lengths, or birthday candles
6. Pipe cleaners
7. Marbles or ball bearings in different sizes

Instructions

1. Use the pencil to mark out a plan for your maze, or make up your design as you go along.
2. Use the tape and glue to fasten the straws/birthday candles and pipe cleaners to the plate to create a maze for your marbles. Try bending and twisting the pipe cleaners to get different effects, or cutting straws into smaller sizes to make curves.
3. Use your marbles or ball bearings as you design your maze, to make sure the spaces are large enough to get through.
4. Use the pencil to mark a 'beginning' and 'end' on your maze.
